

## **Top Ten Report - January 2023**

Reviewed and submitted the December SCM Championship meet to the national database. There were many many records, both FINA and USMS.

Had Steve re-post SCY and LCM corrections to the SPMS All-Time Top 10 that were sent to me.

I have completed and submitted the SPMS All Time Individual and Relay T10 for last year's SCM. Also done and submitted are the SPMS Records (Individual + Relay) for both Age Group and Event. Steve has posted these on the SPMS website.

The USMS SCM rankings are due on January 25; I submitted SPMS two weeks ago and have already reviewed with National.

Please everyone remember to submit split requests if there is the slightest possibility of setting a record or for Top 10. They must be done before the meet ends and cannot be submitted later.

As a reminder, all sanctioned USA Swimming meets are USMS Recognized and although FINA records cannot be set at these meets, times are good for Top 10 and USMS records. If you have a dual registered athlete setting T10 or USMS records at a USA Swimming meet, they must request the meet/times be added.
